- d. The time when connection is established as specified below determined in accordance with the time - standard or daylight saving - legally or commonly in use at the location of the rate center of the calling station, determines whether Day, Evening or Night rates apply. This rule applies irrespective of whether the call is sent paid or collect.
- e. In cases where a message begins in one rate period and ends in another, the charge for the message will be computed in two parts. The initial period any additional minutes beginning in the first rate period will be charged for at the rates in effect in that period. Any additional minutes beginning in the second rate period will be charged for at the rates in effect in the second rate period.
- On station-to-station calls, chargeable time begins when the connection is established between the calling telephone and the called telephone, regulated Miscellaneous Common Carrier mobile radio system, or PBX System.
 - On person-to-person calls, chargeable time begins when the connection is established between the calling person and the particular person or station specified or an agreed alternate.
 - Chargeable time does not include time lost because of failure or defects in the service.
 - Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Telephone Company operator.

2. CALL DETAIL SERVICE

(N)

A. DESCRIPTION

Call Detail Service is a service that is available to Independent Payphone Providers (IPP), also known as Customer Owned Coin Operated Telephone Service (COCOTS) providers, which provides usage and billing information on certain calls which originate from their pay telephones. This service provides call detail data on the following types of originating calls:

- five digit code 10XXX access calls;
- seven digit code 950-1XXX or 950-0XXX access calls;
- 500 access calls;
- 800 and 888 access calls;
- 900 access calls

B. DEFINITIONS

Extended Message Record (EMR) Format

A Bellcore standard used widely in the telecommunications industry.

C. TERMS AND CONDITIONS

1. Call Detail Service for all call types may not be available from all company central office switches. All call data technically available from the switch will be provided to the customer in standard Extended Message Record (EMR) format. Special formatting or screening of certain calls or carriers only will require additional programming at additional charges as specified in the Prices section following. Call Detail Service is provided at the customer's request where equipment and facilities are available.

1. Unless otherwise specified, regulations in this Tariff are in addition to those set forth for IPP Service in Part 13 Section 2 of this tariff.
2. The IPP Coin Line offers central office based signaling required to enable coin rating, coin control, and coin supervision. The Coin Line also offers certain call screening (see definition above) designed to prevent fraudulent calls from being placed from the customer's payphone.
3. With the exception of coin sent paid local calls, rates applicable to end users for calls on the IPP Coin Line will be the same as for Ameritech's Public and Semipublic Service as specified in Part 13, Section 1 of Ameritech Tariff No. 20. Coin sent paid local calls will be controlled by the IPP.
4. Coin sent paid intraLATA calls from IPP Coin lines will be carried by Ameritech. Rates applicable to end users for these types of calls are the same as those specified for Public and Semipublic Services as shown in Part 13 Section 1.
5. All intraLATA operator assisted calls will be handled by Ameritech operator services unless another authorized intraLATA carrier which has the necessary coin control circuitry is selected by the customer. When Ameritech is selected, Ameritech operator services rates, as well as Ameritech IntraLATA toll rates, as specified in Part 13 Section 1 of this tariff, will apply to end users.
6. Rates applicable to end users for directory assistance calls will be the same as those charged from Ameritech's public and semi-public service.
7. No adjustments to the usage rates charged pursuant to 8 following or any other refund will be made in the event of uncollected initial period or overtime coin charges applicable to end users.
8. The customer shall be responsible for payment of all charges originating from or accepted at this type of service.

All terms and conditions set forth in this Section, including but not limited to those applicable to "Basic COPTS line", "Basic COPTS access line", "line(s)", and "Customer Owned Pay Line" shall also be fully applicable to the basic COPTS port as defined in PART 19, Section 1 of this tariff. In addition all terms and conditions set forth in this Section, including but not limited to those applicable to "COPTS Coin line" and "line(s)" shall also be fully applicable to the COPTS Coin port as defined in PART 19, Section 1 of this tariff.

1.1 General

- A. Customer Owned Pay Telephone Service is a 1-party exchange service equipped for Touch-Tone signaling, and is the only service authorized for connection with customer-provided pay telephone equipment.
- B. Customer Owned Pay Telephone Service:
 - (1) Is available as either of two classes of service:
 - (a) The Basic COPTS Line. Rates applicable to end users for calls placed through a Company operator will be the same as for Semipublic Service as specified in PART 13, Section 1, Paragraph 2.1(E), of tariff ILL. C.C. No. 19.
 - (b) The COPTS Coin Line offers network coin rating and signaling.
Rates applicable to end users for calls on the COPTS Coin Line will be the same as for Semipublic Service as specified in PART 13, Section 1, Paragraphs 2.1 (E), 2.3 and 2.4 of tariff ILL C.C. No. 19, with the following exception. For coin paid calls designated as L or listed as local in PART 13, Section 1, Paragraph 2.3 (A) of that tariff, the rate is controlled by the customer owned pay telephone equipment.
 - (2) Shall be provided only with message rate service in exchanges equipped to provide message rate service. In those exchanges not equipped to provide message rate service, Local Area Pay Service will be provided as shown in 1.5 F. following.
 - (3) May be furnished in connection with Joint User Service.
 - (4) May be provided with directory listings as specified for business service in PART 12, Section 1 of this tariff.
 - (5) The Basic COPT line may be provided with Ameritech ProfitMaster Service, which is an optional competitive service as shown in Part 13, Section 2 of tariff ILL. C. C. No. 19.
- C. The location of the NETPOP for this service will be as described in PART 2, Section 2, Paragraph 32 of this tariff.
- D. Presubscription regulations in PART 3, Section 1, Paragraph 5.2 of this tariff apply.
